

Pre-Operative Instructions for Patients Having Intravenous Sedation

- *Please arrive at our facility at least 15 minutes prior to your scheduled appointment.*
- *Have a responsible adult (at least 18 years of age) accompany you to your appointment, WHO MUST REMAIN AT THE OFFICE DURING SURGERY, drive you home and plan to spend the remainder of the day with you.*
- *Have nothing to eat or drink (including water) for at least 6 hours prior to your procedure. If you have an appointment scheduled before 12:00 noon, have nothing to eat or drink after midnight the night before.*
- *Please wear loose fitting clothing with short sleeves and remove jewelry prior to your appointment. If you have long hair, please wear hair down.*
- *Brush your teeth and rinse your mouth thoroughly prior to your appointment, but do not swallow any water.*
- *Take your customary medications and any pre-operative medications recommended by the doctor or staff with just a sip of water.*

- *NO ILLICIT or RECREATIONAL drug use for a minimum of 24 HOURS before surgery. This includes marijuana.*
- *PLEASE NOTE: Taking antibiotics can cause birth control to be LESS EFFECTIVE, this includes birth control pills, transdermal patches and vaginal rings.*

If you have any questions regarding treatment information or our financial policies, please contact our office prior to your appointment.
